Disclaimers

The validity of this specification is one year after the print date.

This specification replaces all previous specifications.

A temperature shock, especially bringing the product from low to high temperatures fast, can lead to water condensation. With the occurrence of water condensation, there is an increased risk of sugar blooming and color migration. Higher moisture also increases the risk of microbiological growth, mostly molds.

Dobla always recommends to use standard storage conditions: "Cool (12 - 20°C), dry (<70%RH), dark and away from strong odours."

Slight variations in quality, colour, smell, taste, dimensions, breakage and appearance that are customary in the industry or are technically unavoidable do not form a basis for complaints. The packaging of the goods shall at least contain the net quantity expressed in mass units (as specified on the packaging of the goods). Therefore, the net weight of the goods shall at least be equal to the net weight specified on the label of the packaging of the goods. Exceeding the net quantity/net weight by and/or a deviation from the number of items per packaging of the goods of a maximum of 10% shall not form a basis for complaints.
